Register to participate LIVE or ONLINE at SVHDCme.goodworkshealth.com

Attendees are eligible to direct a \$100 donation to

Mended Little Hearts & Mended Hearts

after completion of this program

{or to any US 501(c)3 charity of their choice.}*

Mended Hearts is a national and community-based non-profit organization that has been offering the gift of hope to heart disease patients, their families and caregivers.

Good Works Health allows health care professionals to support their favorite charities through learning opportunities.

Fontan Physiology and Results of the FUEL Trial

OBJECTIVES

- Review the challenges associated with Fontan physiology
- Discuss the need for pharmacologic intervention in Fontan physiology and potential benefits of modifying pulmonary vascular resistance
- Compare and contrast the differences in exercise response between a healthy two ventricle and a Fontan heart
- Summarize the results of the FUEL trial

TARGET AUDIENCE

Cardiologists, pediatric cardiologists, and other healthcare professionals who manage patients with Fontan physiology

ACCREDITATION STATEMENT

Horizon CME is accredited by the ACCME to provide continuing medical education for physicians.

CREDIT DESIGNATION

Horizon CME designates this live activity for a maximum of 1.5 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity is supported by an independent educational grant from Mezzion Pharmaceuticals, Inc.

The Meade Room at
